HHR Reader installation on Windows 7 64-bit

To install the USB drivers you will need to do the following. First unzip the 'HHR Driver Repairing Tool.zip' file which came with these instructions. Remember where you unzip it as you will need the unzipped folder later in the installation process. Then plug the HHR reader into your computer and wait about a minute. Then from the 'Start menu' select 'Control Panel' and then the following:

Click on 'Hardware and Sound':

Click on 'Device Manager':

When Device Manger is displayed you should see you HHR reader attached as indicated below (please make sure it is powered on):

🚔 Device Manager	
File Action View Help	
Image: Second	

Right click on 'BioControl: Handheld reader' and select 'Update Driver Software...'

You will be then asked how to install the driver software. Please select 'Browse my computer for driver software'

	Update Driver Software - BioControl - Handheld Reader	— ———————————————————————————————————
	How do you want to search for driver software?	
e 1	Search automatically for updated driver software Windows will search your computer and the Internet for the latest driver software for your device, unless you've disabled this feature in your device installation settings.	
	Browse my computer for driver software Locate and install driver software manually.	>
		Cancel

You will then be asked where the software driver is located. Please select the location where you unzipped the driver software i.e. the 'HHR Driver Repairing Tool.zip' file. After that select 'Next'.
